

## **ALRO DIRECT AND INDIRECT JOBS DATA -2016**

In 2016, the members of the Association of Lumber Remanufacturers of Ontario reported the following jobs data.

The assumptions used in calculating this data are:

### **Direct Jobs**

- any person that is employed by the ALRO member
- any person that is employed by another company whose existence is primarily due to an ALRO member (i.e. offsite remanufacturers, truckers, certain sawmills etc.)

### **Indirect Jobs**

- a multiple of four times the direct jobs number. This multiple is consistent with the multiple that is being used by Canadian Sawmills.
